openNMS Matlab demonstration

This script demonstrates the use of openNMS matlab function and shows how to display a 3D NMS Dataset nicely in matlab.

```matlab
% Copyright 2016, Dr. Georg Wiora, NanoFocus AG

% Set input filename
inputFileName = '1-euro-star.nms';
% Set title of plot
plotTitle = 'Demonstration of NanoFocus openNMS';

% Run the plot function to read and display NMS-file
PlotNMS3D(inputFileName,plotTitle);
```
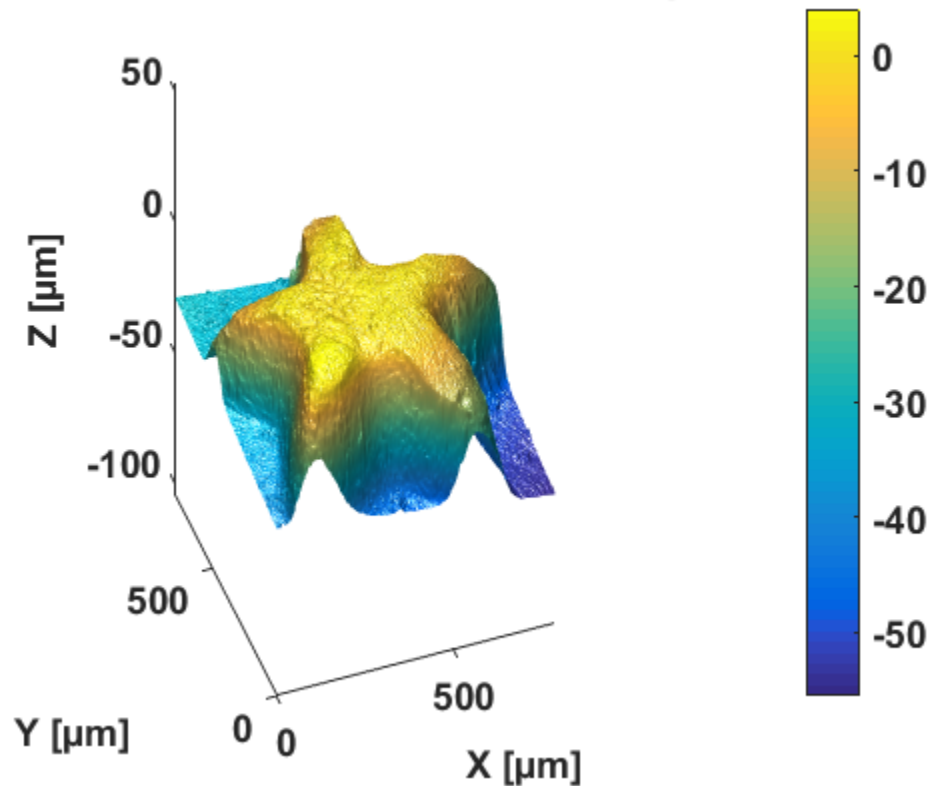

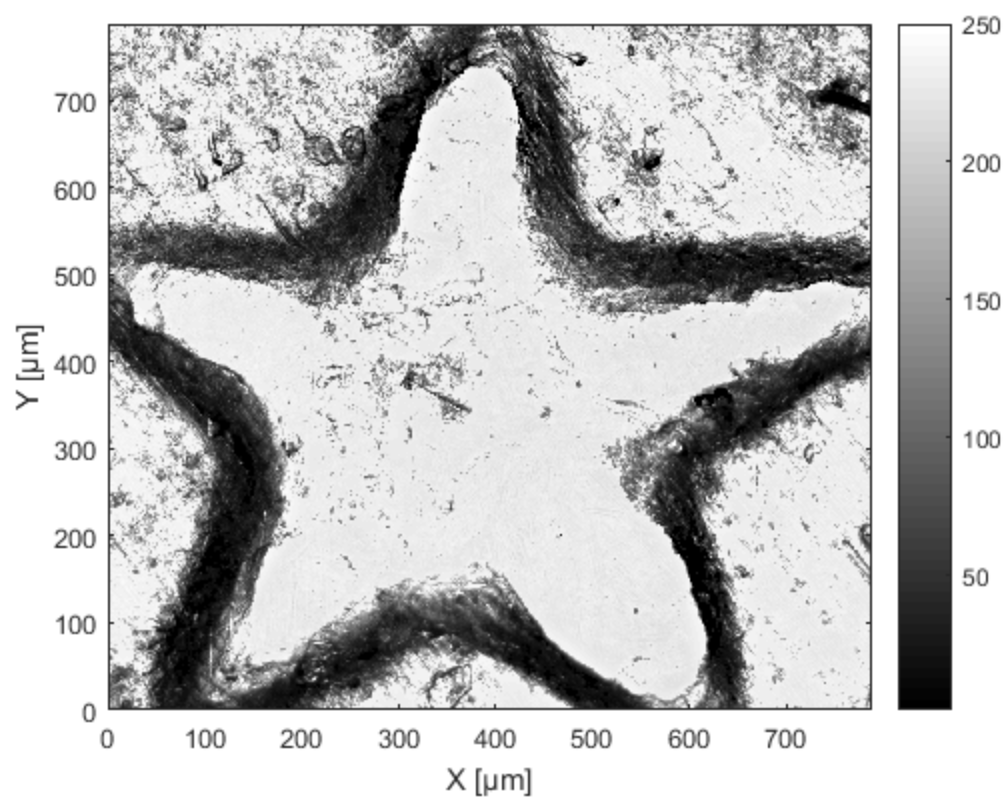

File Comment: "Confocal Measurement of Star structure on a 1 Euro coint. Lense 20x0.6"

Profile Demonstration of NanoFocus openNMS
